

Bringing greater efficiency and scalability to help clients meet **complex immigration requirements**

100k+
USCIS documents processed annually

15k+
H-1B petition forms completed annually

18.5k+
business travel letters generated annually

Many organizations want to tap into the skills of today's global, mobile professionals. However, maintaining compliance with U.S. immigration policies is a major hurdle. Helping businesses meet complex immigration regulations and requirements presents tremendous opportunities for law firms to attract and retain profitable and high-profile clients.

Integreon can help, with expert immigration services. We work as an extension of your firm, adding value to your practice while reducing the burden on your staff and overhead.

Proven expertise

Our team has more than a decade of experience providing U.S. immigration services, including applications, petitions, reporting, and letters.

Security & confidentiality

Integreon regularly handles confidential information, including Personal Identifiable Information (PII). We implement stringent ISO data security protocols to safeguard sensitive information at all times.

Dramatic cost savings

Our proven processes and automation produce efficiencies that give firms a competitive edge. With Integreon, you enjoy quality comparable to Big Four consulting firms—without the big cost.

Quality & accuracy

Our ISO-certified delivery centers in the United States, United Kingdom, India, and the Philippines apply time-tested, process-driven workflows to ensure accurate, high-quality deliverables. Rigorous quality controls achieve over 98% accuracy, which not only meet but exceed most service level agreement expectations.

Speed & scalability

Integreon's global footprint provides for seamless coverage and reduced cycle times. Our delivery centers can rapidly scale to accommodate large volumes without compromising quality.

iLab

Access to Integreon's dedicated in-house, multidisciplinary team of six sigma black belts, statisticians, change management, and robotic process automation (RPA) experts.
