Today's professional workforce is global and mobile. Accessing their skills while maintaining compliance with U.S. immigration policies is a major challenge for many organizations. Devoting in-house staff or external legal or consulting firms to meet the complex documentation requirements is time-consuming and costly, diverting resources from core business activities. Integreon can help, with expert Immigration Services. We work as an extension of your team, helping meet your need for global talent while reducing the burden on your staff and budget.

Proven expertise

Our team has more than a decade of experience and deep knowledge of U.S. employment based immigration requirements and documentation including applications, petitions and letters.
